EXAMINER'S REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record discloses the limitations contained in the original claims as argued in previous amendments. However, the prior art of record does not disclose the limitations of the "second spreading factor codewords comprise a dynamic parameter determined from a required Signal-to-Interference Ratio of said VBR data stream and an amount of power remaining of a total power budget after power allocation to said CBR data stream" in combination with the other limitations in the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

U.S. Patent 6,122,270 to Whinnett et al discloses adjusting the spreading factor in a CDMA system as a means for adjusting the data rate and/or amount of transmission time.

EP 0 876 008 A1 to Nasshan, et al discloses a hybrid TDMA/CDMA system.
